We are pleased to offer the following yellow and bronze hybrids and novelties in the seedling and blooming size plants. Your choice of the following varieties:

C. DOWIANA AUREA crossed onto C. BARBARA BILLINGSLEY. The dowiana aurea used was a clear even yellow with no red in the throat, only gold stripes. The Barbara Billingsley had an exceptionally deep gold lip.

1  $\frac{1}{2}$  in. - \$1.50 ea.    2  $\frac{1}{4}$  in. - \$3. ea.  
3 in. - \$5. ea., 3 for \$12.

Laelia TENEBROSA crossed onto C. Mossae Wagneri. The Tenebrosa used was a large flower with a spread of 6 to 7 in. of an even deep yellow brown. Both parents are spring bloomers.

1  $\frac{1}{2}$  in. - \$1.50 ea.    2  $\frac{1}{4}$  in. - \$3. ea.  
3 in. - \$5. ea., 3 for \$12.

LAELIA TENEBROSA x SELF. An exceptionally large flower with a deep yellow brown color, exceptionally deep purple lip.

1  $\frac{1}{2}$  in. - \$1.50 ea.    2  $\frac{1}{4}$  in. - \$3. ea.

L.C. Luminosa Aurea x Blc. Memanda. Several of these have bloomed in 3 in. pots and gave a flower of a deep, golden brown, with deep purple lip.

2  $\frac{1}{4}$  in. - \$3. ea.    3 in. - \$5. ea.

LAELIA TENEBROSA x C. FABIA. This gives flowers of a deep bronze, with a lavender cast. Deep purple, Tenebrosa type lip, blooming in spring  
3 in. - \$5., 4 in. - \$7.50, 5 in. - \$10. ea.

LAELIA TENEBROSA x C. GUTTATA  
V. LEOPOLDII. This is a bifoliate, entirely different in coloring - a welcome change, ranging from olive green, yellow bronze to a deep mahogany red. The flowers are extra hard and leathery, from two to a dozen on a stem, blooming from September through December, sometimes also in the spring

1 $\frac{1}{2}$ in. pots	\$1.50 ea. (\$12. per doz.)
2 $\frac{1}{4}$ in. pots	3.00 ea.
3 in. pots	5.00 ea.
4 in. pots	7.50 ea. (most in this size will bloom this season)
5 in. pots	10.00 ea. (blooming size)
6 in. pots	15.00 ea.
7 in. pots	20.00 ea.

LAELIA HARPOPHYLLA x C. BARBARA BILLINGSLEY. This gives flowers four to five inches across, round, hard and leathery, long lasting, of a clear muskmelon orange color, spray type of 6 to 12 flowers on stem. Blooming late winter and spring.

1 $\frac{1}{2}$ in.	-\$1.50 ea.,	2 $\frac{1}{4}$ in.,	\$3. ea.
3 in.	-\$5.	(many of this size bloom)	
4 in.	-	\$10. ea.	

LAELIA CINNABARRINA x C. BARBARA BILLINGSLEY. This gives a large flower, 4 to 6 inches across, laelia shape but cattleya size, of a beautiful cinnabar-orange color, 2 to 5 flowers on a stem, blooming late winter to spring.

4 in. (blooming size)	\$10. ea.
-----------------------	-----------

C. Page Platt x Lc. Martinetti. Blooming season, fall, winter, and spring. Color, medium yellow to a deep orange, generally with a very deep red lip, sometimes even the lip is yellow. Blooming size,  $5\frac{1}{2}$  & 6 in. pots, \$15. ea.

LC. BRONZE MARTINETTI. These are plants that have been selected from Lc. Martinetti because they have a deep yellow, bronze cast. The flowers are extra large, 6 to 7 in. across, are very prolific, a strong, robust grower and blooms in June when flowers are in strong demand.

Extra strong plants in 6 in. pots - \$10. ea., 3 for \$ 25.

C. GREEN GOLD - (C. THEBES x C. PRINCESS ROYAL ALBA) This gives a hard, leathery, gold flower, with red lip, long lasting. Some have a spade lip.

5 in. -\$15. ea., 2 for \$25.,

$5\frac{1}{2}$  & 6 in. selected plants, \$25. ea.  
2 for \$ 45.

KING GEORGE x LC GORSE. Clear, even yellow, cherry red lip, gold stripes, easy grower and free blooming. Blooming period from late summer thru fall and winter.

$5\frac{1}{2}$  in & 6 in. pots - \$15. ea.
